

BOU JOU EIE KANTELKRAAN

2m gevurkte stokke x2
1m reguit stokke x2

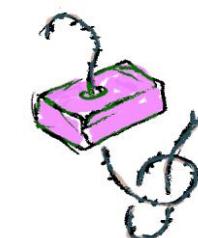

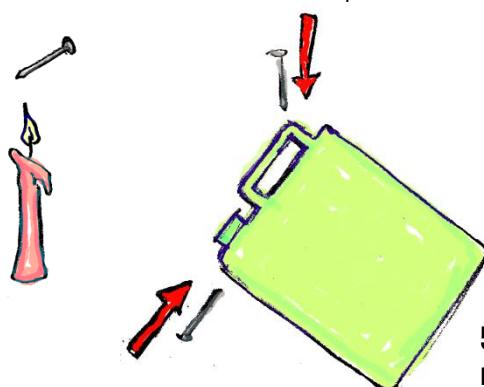

plaas olie op die onderkant van die stokkies om termiete te voorkom

1. Grawe twee gate 18in diep en omrent 2ft uitmekaar

2. Plaas gevurkte stoke, maak seker hul is ewe hoog

3. Vul gate met grong en klippe en pak styf

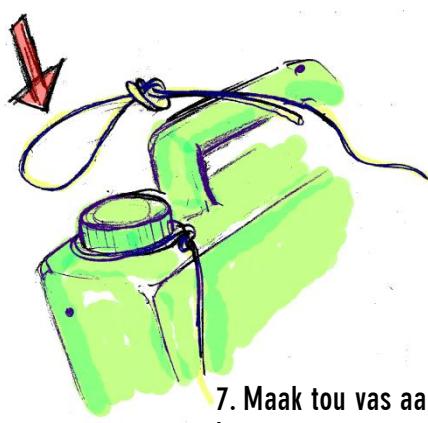

4. Verhit die spyker en maak gaatjies in die water houer

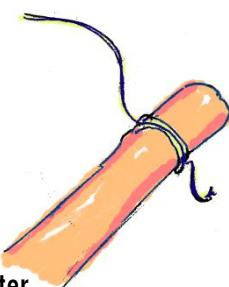

5. Maak 'n gat in die seep en ruig die toutjie daardeur

6. Hang houer en seep op en vul met water

7. Maak tou vas aan water houer

8. En aan grondvlak stok

9. Gebruik gruis as bekken om water op te vang
